CC Docket 02-6

Hi Mark how are you? I am not sure you are working on this case still or not? But on Wednesday night I ran into Don Erdmann at my office. He was here for a technology seminar we were hosting. Apparently he had switched jobs three months ago and is no longer working at Byron School District. Although the have not removed his email or his voicemail.

Anyway I explained to him what was going on and showed him the internal document you had sent me. He had never seen this document either and I asked him to reply to your inquiries. This was his reply. I hope this helps. Please call me if you have any questions. Have a good weekend!

October 7, 2011

Kurt,

After meeting with you Wednesday evening I took some time to review the document that was in question regarding the E-Rate funding at the MILL. The document that I am referring to is labeled "Check Request FY 2005" and to my understanding Entre Computers never made a donation to the MILL for \$5,000.00. My only guess is that either they were hoping that Entre Computers would make a donation for \$5,000.00 hence the reference to check request or they were trying to quantify the tech support hours that your team provided to the MILL. I hope this clears up any misunderstanding and feel free to contact me again if you have any further questions.

Sincerely,

No. of Copies rec'd
